Multiple instances of methamphetamine use during his second term of supervision resulted in Your Honor modifying his conditions to include his participation in the CARE program. Based upon continue methamphetamine use while in the CARE program, as well as Location Monitoring violations, caused a second revocation of supervision.

Ruiz commenced supervision for a third term on November 9, 2017. Just over a month into his third term of supervision, Ruiz tested positive for alcohol. On February 28, 2018, the offender reported to the office under the influence of methamphetamine. Subsequently revocation proceedings were initiated. At a revocation hearing held on April 2, 2018 before Your Honor, the revocation proceedings were held in abeyance for a period of six months with modified conditions. The revocation hearing was originally scheduled for October 1, 2018.

On June 27, 2018 and on July 3, 2018, Ruiz submitted drug test samples that resulted positive for methamphetamine, reflected in the addendum filed on July 23, 2018. Based upon his continued non-compliance, it is respectfully requested that his hearing for revocation of supervision be advanced.
